Marriage Certificate 1925

Walter L. Clifford & Alice Christina Cornett were married in Bartlesville, Oklahoma. Alice had been staying with her sister Virgie and Virgie's husband, Clate Miller, when Clate's cousin, Walter came for a visit. Walter had asked his mother about Alice and claimed he "was going to marry her," before they even met. They met on March 24th, and were engaged that evening, and married 3 weeks later on April 20th. Walter had gotten a job at a planing mill in Tulsa.

POP'S CHILI

In 1925 Donetta's parents, Walter and Alice Clifford, opened a restaurant featuring barbecue. It was located in the town of Weverton, Oklahoma. The name of the restaurant was "Cliff's Pig Stand". While the restaurant did not survive, the Chili and Bar-B-Sauce recipes have, and they have been passed down to many family members.

Time: 4 to 5 hours

Yield: (8) 1 lb. bricks

5 lbs. lean, coarse ground beef
1 lb. or less ground kidney suet
(brown meat in melted suet)

10 cloves garlic
6 oz. onion
5 oz. dried New Mexican
or Anaheim peppers
(seeds removed)

DO NOT RUB EYES WHEN WORKING WITH PEPPERS!

Grind garlic, onion and peppers and add to meat.

7 tsp. salt 3 to 5 tsp. ground cumin 5 tsp. paprika

Add salt and spices to meat mixture. Cook slowly for 4 to 5 hours. Crush and roll to fine crumbs 6 or more ounces of unaltered crackers in a Zip Lock bag. Add cracker crumbs to meat mixture to absorb excess oil. Cool and put in 1 lb. containers. Freeze.

To serve add 1 cup of water to each brick of chili. Add pinto beans and serve.

CLIFF'S BAR-B-QUE SAUCE

4 cups ketchup 2 tsp. paprika 2 tsp. sugar
2 or more tsp. ground cumin 1/4 cup white vinegar 1/4 tsp. cayenne pepper

Mix ingredients together and bring to a boil. Cool. Store sealed in refrigerator.

A consistent idea winner in the Wood Shop, Mr. W. L. Clifford, was awarded second prize for an improved "wrinkle" in making spars for the Eaglerock wings. His idea has been estimated to save about \$150 per ship. Under the old method one spar was cut and squared at a time, but under the improved scheme, one hundred spars are handled as a unit.

Idea Committee Name Talented Ten

Selected Men Who Contributed Most Valuable Ideas
By W. G. HELMICK
Sec'y of Committee

Following the plan outlined by J. Don Alexander over a year ago, the idea committee has selected ten names for the "genius club." Those selected are the ten who have submitted the most valuable ideas and have contributed the best "mental energy" to the up-building of the Industries for the year ending February 1, 1928. In making its selections the committee took into consideration quality of ideas, quantity of ideas and the co-operative spirit shown in helping to carry out the ideas to their utmost benefit to the business.

Before introducing the "Talented Ten," it is worth while to consider the importance of new ideas to the success of the business. These ten members have thrown out a challenge to the rest of us which should spur everyone on to be a better thinker. The man who contributes valuable ideas not only helps his company, but also indirectly helps his fellow man, and most of all he helps himself, because by working out ideas he improves his own brain power, gains self-confidence and increases his chances for bigger success.

Our company recognizes the importance of ideas and pays for the best ones with prize money. The committee has quite a large number of ideas to consider every month, many of them good ones, so it is a real distinction to be placed among the ten best idea-producers for the year. Hats off to the following persons, who have been selected as the ten highest in the idea contest:

- Elmer Olson
- Homer E. McKee
- Jarvis Buck
- W. L. Clifford
- H. A. Hanson
- R. P. Dawson
- Dred D. Seymour
- F. G. Milner
- E. O. Reinhardt
- Pete Geshell

W. L. Clifford Wins Idea Contest Honors

His Idea Increases Output of Ribs in Wood Shop

First prize in the August Idea Contest was awarded to W. L. Clifford, of the Wood Shop, for a practical idea for increasing output in building ribs. His idea has been in operation about three months and is said to increase production in this particular operation about 25 per cent.
